ABOUT ME

I'm a dedicated software developer who loves learning from others, exploring new technologies and striving for excellence. I have a positive, can-do attitude and am flexible in working with different environments and frameworks, understanding their unique benefits. Looking for a full-time position, to gain experience and learn new things.

EDUCATION

B.Sc. in Software Engineering

Azrieli College of Engineering | October 2020 – September 2024

- Proficient in various programming languages
- Studied operating system architectures, data structures, and algorithm design
- Explored advanced computing topics

Projects

Final Project- "Simulation Management Platform"

- Developed a web platform for efficient simulation management using Python, React, MongoDB, RESTful APIs, and third-party service integrations.

Android Application – "SMS Translation"

- Developed an Android application for translating SMS messages into the user's preferred language, featuring automatic translation and offline capabilities using machine learning models.

WORK EXPERIENCE

RAFAEL Dynamic Defense Company | 2019 - 2020

- Served as an armed guard, responsible for security and protective duties.

Security of Israel Electric Corporation | 2020 - Present

- Served as an armed guard, manage for operations and security systems.

MILITARY SERVICE

Combat Soldier and Commander

Israel Defense Forces (IDF) | 2013 – 2016

- Held multiple leadership and operational roles, including direct command and strategic planning responsibilities.
